The purpose of this document is to provide the information needed to populate values in the Local Student & Accommodations Import data file. The document contains a table with the list of fields that will be present in the data file. This table also indicates if the field is required, field length requirements, Field Definitions, Expected Values, or criteria for entering valid values, along with the Administration details for the Accommodations. The student record is used to gather demographic information, as well as information regarding a student’s testing condition, materials, or accessibility features and accommodations that may be needed to take the assessment.

Checklist Prior to File Import		
1	Verify student demographic fields used for matching criteria are the same between what is populated in the Local Student & Accommodations import data file and what is populated currently in Pearson Access.	<input type="checkbox"/>
2	Verify that all required fields are populated. Required field rows are highlighted in green.	<input type="checkbox"/>
3	All expected values match the values found in this document. Bolded text in the <b>Expected Values</b> column must be entered exactly as it appears.	<input type="checkbox"/>
4	Do not delete the header row.	<input type="checkbox"/>
5	Import the file as a Comma Delimited File (.csv file extension).	<input type="checkbox"/>

## Student Matching Rules

When student data is imported into Pearson Access, demographic fields are used to identify unique students. When data is updated in Pearson Access, matching rules are applied to these fields to identify if records currently exist within the system. This information will be important for importing Local Student & Accommodation files for the 2020-2021 administrations as many students already exist within Pearson Access from the previous administrations and/or USIS data.

### How Matching Works?

Record will match if the SASID (State Assigned Student Identifier) and two out of the three Core Demographic Fields match:

- Last or Surname
- First Name
- Birth Date

### Helpful Hints for the Update Indicator Column:

- I = Insert, this should be used when putting a student into a new organization. Even if the student exists in Pearson Access in another organization the “I” should be used.
- D = Delete, this should be used when removing a student from an organization. If you are placing a student into a new organization, you should either use a separate file to delete/remove students from their previous organization or have a separate row for the student who needs to be removed from their previous organization.
- U = Update, this should be used if a student is in the correct organization, but needs changes to their demographic data, accommodations, or accessibility features.

Column	Field Name	Required Y/N	Field Length	Field Definitions	Valid Values	Notes or Test Content
A	Update Indicator	Y	1	Identifies rows to be added or updated. If this value is not provided, the record will fail to load.	I = Insert U = Update D = Delete	
B	Customer Code	Y	255	Pearson created unique ID to identify project	<b>MARYLAND</b>  Must be in uppercase	
C	Organization Code	Y	50	The Organization responsible for administering the test for a student.	Numeric 0-9	
D	Student ID	Y	50	State assigned Student ID (SASID)  If loading a student without a State Student ID put “NONE” in this field. The system will generate an ID that will start with N.	Numeric 0-9  NONE	Maryland Student Identifiers are 10 digits in length. Please ensure when creating a student, you are using the Maryland assigned SASID.  If the student is a temporary student or will never have a Maryland SASID the student’s ID will start with the letter N and will be created by Pearson Access.
E	Local ID	N	50	A unique LSS/LEA 24 assigned number	Numeric 0-9 Blank	
F	First Name	Y	255	The full legal first name given to a person at birth, baptism, or through legal change. Matching Criteria is case sensitive.	Alpha Space	

Column	Field Name	Required Y/N	Field Length	Field Definitions	Valid Values	Notes or Test Content
G	Last Name	Y	255	The full legal last name borne in common by members of a family. Matching Criteria is case sensitive.	Alpha Space	
H	Middle Name	N	255	The full legal first name given to a person at birth, baptism, or through legal change.	Alpha Space	
I	Date of Birth	Y	10	The month, day, and year on which a person was born.	mm/dd/yyyy m/d/yyyy
