

Performance Dashboard and Reports

The Performance Dashboard displays an overview of all assessments linked to an assessment program. From there, you can drill down to individual assessments for more details or go to a program report to access additional filters.

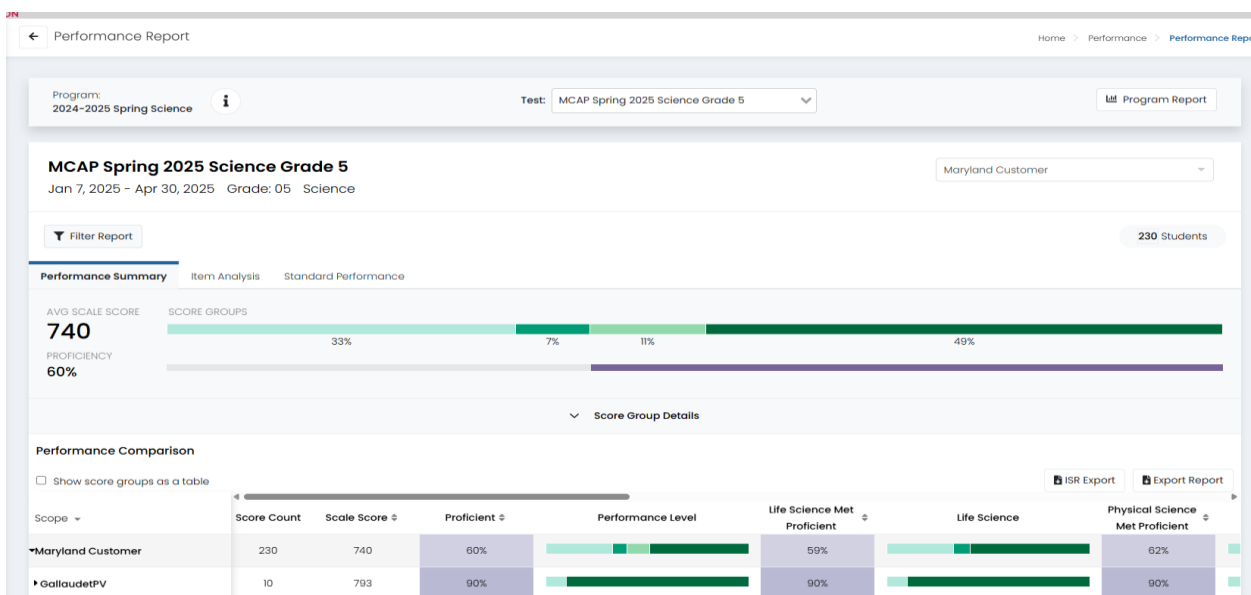

To access the main Performance Dashboard:

- Reporting>Performance
- Select Program

Performance Report Summary Tab

The **Performance Summary** tab is the default view in the Performance Report; click on an assessment in the Performance Dashboard to access. It provides a performance overview across all organizations you have access to for a specific test administration. It shows Progress (scoring complete), Proficiency (if included), and the performance objectives defined by your program. In the Scope column, you can drill down to specific institutions and classes. You may see different performance metrics depending on the performance objectives selected for the program. These include Percent Correct, Raw Score, Scale Score, Performance Level, etc.

Student Performance Report

To view the Performance Report by individual student, use the Student Performance report. In this report you can compare test windows, trait performance and score distribution

Program Report

The **Program Report** provides an overview of student performance for all (or selected) tests and test windows in a program. This report is available to roles with permission to view it, such as district and school administrators.

The screenshot shows the 'Program Report' interface. At the top, it displays the program name '2024-2025 Spring Science' and the scope 'Maryland Customer'. Below this, there are filters for 'Grades', 'Content Areas', and 'Test Window', all currently set to 'All...'. A 'Test Results' tab is active, showing 'Standard Results'. The main content area displays '2 Result Groups' with a table of performance data. The table includes columns for Grades, Content Areas, Test Window, Students, Scale Score, Proficient percentage, Performance Level (visualized with a bar chart), Life Science Met Proficient percentage, and Life Science (visualized with a bar chart).

Grades	Content Areas	Test Window	Students	Scale Score	Proficient	Performance Level	Life Science Met Proficient	Life Science
05	Science	Spring 25	230	740	60%		59%	
08	Science	Spring 25	244	735	52%		50%	

Results Explorer

In the Results Explorer, permitted users can view and export a list of students with performance on one or multiple assessments in a program. Users with access to student data at multiple schools can filter by school or view results for students across organizations. The columns in the report are aligned with the program's objectives, organizing the data according to the program's predefined criteria. From the report, users can view ISRs (Individual Student Reports) using the action menu or export the report to a csv file.

The screenshot shows the 'Results Explorer' interface. It features a search bar at the top left and a list of filters on the left side, including Student, Program (2024-2025 Spring ELA/Math), Test, Organization (MarylandPV), and Demographics. The main area displays a table of results for 2336 students. The table columns include Student Name, Student ID, Test, Submitted Date, Percent Correct, Reading Percent Correct, Reading Literary Percent Correct, Reading Informational..., and Vocabulary Percent Correct. The table shows data for several students, with some having 100% correct and others 0%.
