

4.11.2 Grades 6–8 and High School (Geometry, Algebra I, and Algebra II) Mathematics – All Sections

NEW IMPORTANT: There are two DIFFERENT sets of directions and scripts for mathematics: one for the Regular form administration and one for the Accommodated form administration. The Accommodated forms include Text-to-Speech, Human Reader/Human Signer, Spanish, Screen Reader/Non-Screen Reader, and ASL.

NEW The SAY box of the script will be clearly noted with Regular, Accommodated, or BOTH. This indicates which of the two scripts should be read and if text should be read for both scripts. Read through this script carefully BEFORE testing to follow whether you are using the Regular or Accommodated script.

NEW The two groups of students should not test in the same room as they will have different directions and different Seal Codes.

On the first read through, Test Administrators are required to adhere to the scripts provided in this manual for administering the MCAP assessment. Read word-for-word the bold instructions in each SAY box to students. You may not modify or paraphrase the wording in the SAY boxes. Some of the SAY boxes are outlined with a dashed line and should ONLY be read aloud if they are applicable to your students. Test Administrators should be familiar with the script before administering the assessment.

Section	Section Testing Time	Required Materials	Start Time	Stop Time
Sections 1–4	40 Minutes per Section	<ul style="list-style-type: none"> • Student testing tickets and Seal Codes • Pencils • Scratch paper • Calculators (only for students with documented accommodation) 		

It is critical to ensure that students have the appropriate accessibility features and accommodations prior to testing. Refer to Section 3.3 for further instructions on how to check accessibility features and accommodations.

Test Administrators must make sure all testing devices are turned on and TestNav is launched to the Sign-In page. **If headphones are needed as an accessibility feature, make sure they are plugged in prior to launching TestNav (except for headphones that are used as noise buffers).**

 BOTH	<p>Today, you will take the Mathematics Assessment.</p> <p>You may not have any electronic devices at your desk, other than your testing device. Making calls, texting, taking pictures, and browsing the Internet are not allowed. If you have any unapproved electronic devices with you right now, including cell phones, please turn them off and raise your hand. If you are found to have unapproved electronic devices during testing, your test might not be scored.</p>
--	---

If a student raises their hand, collect the electronic device (or follow your school/LSS policy) and store it until the Section is complete. Certain electronic devices may be allowed for accommodations purposes only during testing. Please contact your School Test Coordinator if you have questions regarding electronic devices.

Ensure that no applications are running (i.e., music streaming, YouTube®, etc.) before students launch TestNav.

Checking Audio (for Mathematics Text-to-Speech Accessibility Features only)

Accommodated

Make sure your headphones are plugged in and put them on. On your screen below the “Sign In” button is a link called “Test Audio.” Select the link to make sure you can hear through your headphones and adjust the volume to the highest level. You can adjust the volume in the test after you begin.

See below for a screenshot of the **Test Audio** function. Test Administrators should assist students with audio adjustments as needed.

Instructions for Signing In

BOTH

Please sit quietly while I distribute your student testing tickets and scratch paper.
Do NOT sign in until I tell you to do so.

Distribute scratch paper, mathematics reference sheets (if locally printed), and student testing tickets as well as optional mathematics tools as applicable. Make sure students have pencils. If a student has a calculator accommodation in their IEP or 504 plan, make sure the student receives the appropriate device. The student will need the calculator during the non-calculator items and may use that same calculator throughout the entire test.

BOTH

Now, look at your student testing ticket and make sure it has your first and last name on it. Raise your hand if you do not have your ticket.

If a student has the wrong ticket, provide the correct student testing ticket to the student. If you do not have the correct student testing ticket, contact the School Test Coordinator.

If the student does not see their correct name on the Sign In screen, close the TestNav App, launch the App again, and sign the student back in with the correct student testing ticket.

NEW STOP! The SAY boxes on the following pages provide different directions for two different groups. Before continuing with the directions, be sure you are administering the test to either a group without any accommodations (Regular) or a group using the Accommodated form (Accommodated). The accommodated form is described as Text-to-Speech, Human Reader, etc. You should NOT test both groups together. You will see some SAY boxes with BOTH meaning that direction should be read for both groups of students.

Circulate throughout the room to make sure all students have successfully signed out of TestNav. Then, collect student testing tickets and scratch paper.

- Students must SUBMIT each Section of the test before closing their device. Ensure all students are in **Exited** status at the end of each section and showing **Completed** at the end of the test. **Completed** will at some point in time change to **Submitted for Scoring**.
- If testing another Section on the same day, make sure students in **Active** status exit out of TestNav by selecting the “User dropdown menu” and then selecting “Sign out of TestNav”. All students need to be showing in **Resumed** status to be manually moved to their next testing section by the STC. Please collect materials, but do not return materials to the STC until after the next Section is complete.
- Return all test materials to your School Test Coordinator. Report any missing materials and absent students.
- Report any testing irregularities to your School Test Coordinator.

Note: If you are administering more than one Section during the same day, allow students to take a short break (e.g., restroom break, stretch break) or extended break (e.g., lunch). If the break exceeds more than 15 minutes, collect all tickets and materials and have students sign out of TestNav. Once students have returned and are seated, read the script to move on to the next Section.

The previous directions found in Section 4.11.2 should be used for all Sections of the Grades 6–8 and High School Mathematics Assessments.
